

SECURITY POLICY

Premiumfocus Nautilus Ltd is committed to provide world class maritime security services meeting the strictest standards on safety and supply chain security.

The Company is organized to meet in priority all needs in the field of maritime transportation in unsafe sea areas by confronting international piracy and protecting the clients' crew and vessels.

The security objectives of the Premiumfocus Nautilus Ltd are:

- To protect all type of merchant vessels (cargo, tankers etc.), cruise liners and/or yachts, using experienced and appropriately selected and trained personnel.
- To continuous identify and adapt to the needs and expectations of the stakeholders and all the interested parties in the supply chain security.
- To ensure that security threats in relation to its services are identified, analysed and effectively controlled in a way that the supply chain and ship transportations are not disturbed while always protected.
- To improve its safety and security performance through a systematic operational control and monitoring and measurement techniques.
- To utilise the best available technical resources and equipment.
- To comply with all applicable legislation and regulations of home, Flag, coastal and port states affecting its services.
- To cooperate with contractors, suppliers and other external parties for the promotion of the security throughout the supply chain and to communicate them our security policy.
- Not only to adhere but to exceed the requirements of the ISO 28007:2015.
